Mark Jenel Cortas

Mandaluyong, Metro Manila
09939722871 markjenelcortas29@gmail.com mark-jenel-cortas-18779233 Jenel-web

EDUCATION

Polytechnic University of the Philippines **Sept 2024 – 2028**
Bachelor of Science in Information Technology *Sta. Mesa, Manila*

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Data Communications & Networking
- Introduction To Computing
- Web Development
- Operating Systems
- Database Management System (DBMS)
- Object Oriented Programming

PROJECTS

MJCinema | Java, Spring Boot, MySQL, JavaScript, HTML5, CSS3, JSON, TMDB API,Git **Jan 2026**

- *Engineered a cinema booking system using **Java Spring Boot and MySQL**, implementing **RESTful APIs** for real-time seat occupancy and transaction management.*
- *Developed a Vanilla JavaScript engine to parse theater layouts into interactive, state-managed seating blueprints with CSS Grid and ES6+ logic.*
- *Architected a Java Spring Boot REST API featuring **Session-based Authentication, Global Exception Handling, and DTO mapping** to efficiently decouple database entities from dynamic theater-blueprint payloads.*

Countdown Math Arena | Next.js, TypeScript, Socket.io, Node.js, Supabase, PostgreSQL, Tailwind CSS, Git **Oct 2026**

- **Architected** a server-authoritative real-time multiplayer game using **TypeScript, Socket.io, and a dedicated Node.js game server**, implementing synchronized match states, round timers, reconnect handling, and a defined match lifecycle.
- **Engineered** a mathematical expression validation and scoring engine with **recursive solution checking**, strict arithmetic-rule enforcement, and integer-based scoring; implemented round-submission safeguards and client-server coordination for timed gameplay.
- **Implemented** a **Supabase PostgreSQL** persistence layer with an atomic, idempotent finish match database function to finalize matches and update player statistics, including MMR, wins, and loss.

TECHNICAL SKILLS

Languages: Java, C, HTML, CSS, JavaScript, TypeScript
Frameworks: React,Node, SpringBoot
Developer Tools: VS Code, Intellij Idea Community, Antigravity,
Technologies: Github, Claude, Gemini, ChatGPT

EXTRACURRICULAR

Google Developers Group onCampus -PUP **11 2024 – PRESENT**
Operations Associate *Sta. Mesa, Manila*

- Hosted **SparkFest 2025**, serving as lead presenter for both the online opening ceremony and on-site hackathon.
- Announced schedules, introduced speakers and judges, and facilitated live segments across platforms.
- Assisted in scriptwriting, program flow planning, and event logistics to ensure smooth execution.

AWS User Group Philippines - Build Over Nights Hackathon Sept 2026 **– Oct 2026**
Quality Assurance Tester *BGC, Taguig*

- Conducted comprehensive E2E functional and regression testing across staging web applications using standardized test execution runbooks.
- Performed security isolation, network smoke testing (offline/throttling), and input validation checks to safeguard data integrity and application reliability.
- Generated detailed bug reports and formal QA sign-off checklists in GitHub PRs to communicate release status with development teams.
